We're here to support your recovery and independence, making your **TRANSITION** back home smooth, safe, and empowering.

Hospital to Home Program

Our Hospital to Home program, in partnership with Holyoke Medical Center, ensures a smooth and safe transition from hospital to home with personalized support. Our Hospital Liaisons work closely with your medical team to coordinate essential services, helping you recover in the comfort of your home rather than a rehabilitation facility. We develop a care plan tailored to your needs, ensuring you have the right support in place upon discharge.

With Hospital to Home, you'll have access to home care, personal assistance, transportation, and home-delivered meals, along with ongoing support to help prevent hospital readmissions. Our team stays connected to catch potential health concerns early, reducing the risk of complications. By handling the details, we make it easier for you to focus on healing and regaining independence.

Community Transition Liaison Program

Are you or a loved one currently living in a nursing facility but considering returning to the community? Our Community Transition Liaison Program (CTLTP) is here to help make that goal a reality.

Our CTLTP team will:

- Work closely with you to understand your interest in transitioning to community living.
- Assist with discharge planning to ensure a safe and supported move.
- Connect you with programs and local community resources to meet your needs.
- Advocate on your behalf and help resolve any concerns related to your transition.
